## COCOKIM

***“Eco-Friendly Crafts for a Sustainable Future”***

***We Accept Custom Orders***

## **COCOKIM'S BACKGROUND**

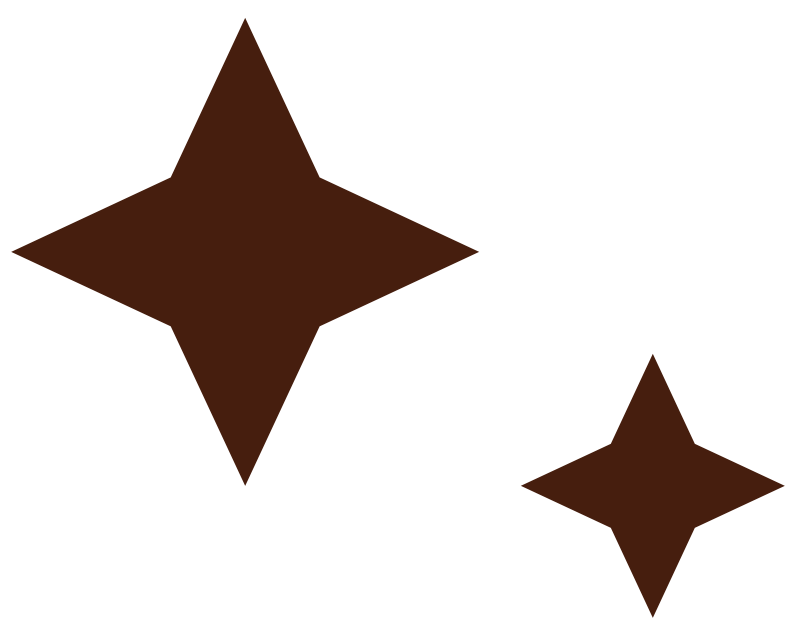

---

**COCOKIM is our brand under Kriya Innovation Mandara Cooperative (KIM) was established in 2020 in Penajam Paser Utara, East Kalimantan, driven by a deep concern for the untapped potential of coconut husk, which has long been underutilized and often treated as waste in local communities.**

**KIM was founded with a spirit of innovation and empowerment, transforming coconut husk into high-value products such as cocopeat, cocofiber, organic fertilizer, and various handicrafts.**

**One of KIM's core missions is to empower women, especially single mothers. The cooperative believes that every product created is not merely a commodity, but a symbol of women's resilience and their pursuit of a better life.**

**KIM is committed to becoming a pioneer in developing coconut-based industries in East Kalimantan, while making a tangible impact on both the environment and community welfare.**

BULK COCOPEAT PREMIUM

Code : KP 0001

Spesification		
pH	:	5,0 to 6,5
Electric Conductivty	:	< 600 Ms/CM
Water Content	:	< 65%
Particle Size	:	> 1 to < 9 mm
Parameter Pathogen	:	Negative
Packing	:	Bag ( 20 Kg )

COCOPEAT BLOCK PREMIUM

Code : KP 0002

Spesification		
pH	:	5,0 to 6,5
Electric Conductivty	:	< 600 Ms/CM
Water Content	:	< 65%
Particle Size	:	> 1 to < 9 mm
Parameter Pathogen	:	Negative
Packing	:	Wrapped
Size Block	:	30 x 30 x 15 cm

COCOFIBER BALE

Code : KP 0003

- Spesification**
- Fiber Length : 5 – 25 cm
  - Impurities : 5 % max
  - Dust : 3 %
  - Colour : Clean, Dried, Bright Yellow
  - Moisture : 18%
  - Weight : 100-110 KG
  - Size : 100 x 90 x 50 cm

COCO LINER SHEET

Code : KP 0004

PAGORA

Code : KP 0005

ORGANIC FERTILIZER

Advantages of using Organic Fertilizers

- Balances the soil ecosystem
- Boosts plant health naturally
- The process of decomposition requires no chemical intervention
- Organic fertilizers don't upset the balance in the soil because they don't leave behind any artificial compounds

KIM Organic Fertilizer Ingredients

1. Cocopeat
2. Animal Manure
3. Rice Husk Ash/ Charcoal
4. Fish Meal ( Fish Powder )

Our production produces different sizes of packaging from 2.5 kg, 5 kg and 25 kg.

COCO BRISTLE

Price : \$ 2.4 / Kg

Spesification

- Weight : 250 gr
- Fiber Length : 10 - 25 cm
- Natural Color : Light Brown & Dark Brown
- Impurities : Max 3 %
- Fiber Diameter : ± 0.2 - 0.6 mm
- Package : Bales, Sacks or Plastic Bundles
- Weight per Bale : 25 - 50 Kg (Customizable)

Coco bristle is a coarse, stiff fiber derived from the outermost layer of coconut husk, specifically from the long, hard fiber. This fiber is obtained after the coconut husk separation process and is usually the strongest part of the coconut fiber.

Functions and utilization :

- 1.Row Material for coarse brushes, such as : ( Floor Brushes, Toilet Brushes)
2. Material for doormats and brooms
- 3.Components for industrial brushes ( cleaning brushes for machines)
4. Natural Craft and Decorations
5. Export products to foreign cleaning or craft industries

# COCOMULCH

Code : KP 0007

### Spesification

Material : 100% Coconut Fiber  
Packing : Cartoon  
Feature : Eco-Frendly  
Color : Brown  
Size : Customized Size  
Function : Garden Usage  
Use : Easly  
Diameter : 50 cm

### Function of Coco mulch

1. Moisture Retention
2. Weed Suppression
3. Soil Erosion Control
4. Temperature Regulation
5. Soil Enrichment
6. Eco friendly and Biodegradable
7. Improves Landscape Aesthetics

# COIR ROLL

Code : KP 0008

### Applications:

Erosion control (slope stabilization, riverbanks, etc.)  
Landscaping and gardening  
Green roof layers  
Soil moisture retention  
Tree root protection  
Mulching

**Material:** 100% Natural Coconut Fiber (Coir)

**Binding:** Natural latex or synthetic binder (optional)

**Size Options:**

Length: 5 to 50 meters

**Density:** 400 – 800 g/m<sup>2</sup>

**Color:** Natural brown (unbleached)

**UV Resistance:** Optional (upon request)

**Packaging:** Rolled and wrapped in PP plastic or customized packaging

Coir rolls are highly effective in controlling erosion on slopes, riverbanks, drainage channels, and coastal shorelines. The dense structure of the coconut fibers helps to slow down water flow and reduce the velocity of surface runoff.

## COIR MAT

Code : KP 0009

Material : 100% Natural Coconut Fiber (Coir )  
Standard Size :  
200 cm x 200 cm

Adds a natural and ethnic touch to the room as a  
floor covering or curtain

**costum size available**

# COCOMESH

Code : KP 0010

### Spesification

Length : 5 - 25 meters ( Custom Sizes available)

Rope Diameter :  $\pm$  4 - 6 mm

Width : 1 meter or 2 meters

### 🌿 Biodegradable Solution:

Made from 100% natural coconut fiber, cocomesh decomposes naturally and enriches the soil without polluting the environment.

### 🌱 Land Restoration and Reforestation:

Ideal for greening projects, forest rehabilitation, and the natural and sustainable recovery of barren land.

### 🌍 Environmental Protection:

Cocomesh is an eco-friendly alternative to synthetic materials for land conservation and ecosystem protection.

# COIR ROPE

Code : KP 0102

**Round 62 cm**

**Code : KP 0054**

**Size:**

**Height 12 cm**

**Diameter 9 cm**

**Round 48**

## TRIANGULAR COCOPOT

Code : KP 0038

A pot made from a combination of cocofiber and wire.

Size :  
Height 12 cm  
Width 14 cm

## SIDE WIRE POT

Code : KP 0056

Size:  
Height 12 cm  
Diameter 12 cm

## RECTANGULAR POT

Code : KP 0046

Size :  
70 cm x 22 cm x 12 cm

## SQUARE COCOPOT

**Code : KP 0039**

**Size :**  
**Height 12 cm x Width 20 cm**

**Code : KP 0040**

**Size :**  
**Height 12 cm x 16 cm**

# RAOUND COCOPOT

**Code : KP 0041**

**Size:**  
**Height 12 cm**  
**Diameter 20 cm**

**Code : KP 0042**

**Size:**  
**Height 12 cm**  
**Diameter 13 cm**

**Code : KP 0045**

**Size:**  
**Height 30 cm**  
**Diameter 30 cm**

## COIR POT CONE

**Code : KP 0043**

Coco pots are used for natural wall decoration. Perfect for beautifying home walls, fences, or garden walls with a natural and tropical feel.

**Size:**

**Height 27 cm**

**Diameter 17 cm**

**Code : KP 0050**

A pot made from a combination of cocofiber and wire.

**Size:**

**Height 30 cm**

**Diameter 14 cm**

**Code : KP 0051**

A pot made from coconut fiber rope for flowering plants

**Size:**

**Height 25 cm**

**Diameter 16 cm**

## COIR ROPE POT

**Code : KP 0101**

A pot made from coconut fiber rope for flowering plants

**Size:**

**Height 16 cm**

**Diameter 16 cm**

**Code : KP 0047**

**Size:**

**Height 21 cm**

**Diameter 21 cm**

**Code : KP 0059**

**Size:**

**Height 16 cm**

**Diameter 16 cm**

## PENCIL BOX

A pencil box is a multifunctional container that can be used to store stationery or as a small decorative plant pot. Made from coconut fiber, it has a natural look, is environmentally friendly, and is suitable for table decoration.

**Code : KP 0067**

**Size:**  
**Height 15 cm**  
**Diameter 8 cm**

**Code : KP 0098**

**Size:**  
**Height 15 cm**  
**Diameter 8 cm**

## FIBERBOARD

Code : KP 0057

Fiberboard made from a combination of cocofiber and wire.

**Size :**

**Height 27 cm x width 16 cm**

## COCONUT LEAF PLATE

Code : KP 0089

A coconut leaf plate is a traditional plate made from coconut leaves. It is lightweight, environmentally friendly, and often used for serving food at traditional events or in restaurants, as well as for decoration.
